S I R:

This Preliminary Amendment is being filed concurrently with the filing of a Request for Continued Examination (RCE) application.

Any necessary fees in connection with this matter should be deducted from Deposit Account. No. **503814**.

On page 2 of the Advisory Action dated June 22, 2006, the Examiner indicated that a preliminary search was conducted and revealed reference JP10-277382 as a reference that applicant may want to review. Applicant would appreciate this reference being made of record. However, applicant wishes to point out to the Examiner that the subject application has a priority date based upon the corresponding parent application filed in Japan of October 2, 1998 and that the reference JP10-277382 is owned by the same applicant.

Accordingly, this Japanese patent should not be citable as a reference.

Respectfully submitted,
